PORTFOLIO RESUME

WEB DEVELOPER | FRONT-END AND UI

Bolivar, MO 65613 | (573) 318-8746 | landonpullam@gmail.com | landonpullam.com | linkedin.com/in/landon-pullam-147a602aa

PROFESSIONAL SUMMARY

Web developer and software engineering student who has delivered four published small-business websites, with a fifth in development, and a connected client and staff platform. Combines responsive front-end development, content architecture, accessibility, local SEO, and practical lead workflows.

TECHNICAL SKILLS

Front end: HTML, CSS, JavaScript, React, responsive design, UI/UX, Razor, Mustache

Accessibility: Semantic HTML, keyboard access, visible focus, labels, status messaging, reduced motion

Search and launch: Technical SEO, structured data, metadata, sitemaps, clean routes, Netlify, Cloudflare, DNS, SSL

Application: Supabase, Postgres, Auth, Row Level Security, Storage, Edge Functions, Git, Bitbucket

EXPERIENCE

Show Me Web Design | Independent Software Developer | Jul 2026 - Present

- Designed and launched four responsive client websites and developed a fifth awaiting client launch, each organized around clear customer decisions and mobile contact paths.
- Built lead and service workflows including estimate requests, inquiry forms, photo uploads, email notifications, inventory browsing, comparison, scheduling, and private staff tools.
- Applied semantic structure, keyboard access, visible focus, accessible labels, reduced-motion support, structured data, metadata, sitemaps, and local search content.
- Managed projects from discovery and content planning through custom front-end development, deployment, DNS, SSL, handoff, and ongoing support.

Datix | Software Development Intern | Oct 2024 - Mar 2026

- Led a visual and UX modernization of the Intelligrate platform, creating more responsive layouts and consistent interaction patterns across major modules.
- Improved dashboards, modal behavior, validation feedback, and nested map visualization while collaborating through Agile planning, pull requests, and peer review.

SELECTED CLIENT WORK

Ashen Hymns | ashenhymns.com

- Created a brand-specific studio site with artist profiles, galleries, tattoo-request uploads, private request handling, schedules, and public walk-in availability.

Star Auto Group | starautogroup417.com

- Built responsive inventory and vehicle pages with filtering, featured listings, galleries, and comparison for up to three vehicles.

Lambert Property Services | *In development*

- Developed 11 responsive pages, including five service landing pages and a service-area map for 31 Southwest Missouri communities; launch is awaiting client input.

JMP Industrial | jmpindustrial.com

- Built a four-page service site with persistent mobile call and text actions, photo-enabled estimate requests, a filterable gallery, and local search structure.

Vitaris Home Care | vitarishomecare.com

- Designed a trust-centered home care site with readable service guidance, owner context, service-area content, and a streamlined inquiry page with email notifications.

EDUCATION

Southwest Baptist University | Bolivar, MO | Expected May 2027 | GPA: 3.906

B.S. Software Engineering; B.S. Cybersecurity | Minors: Mathematics; Web Systems & Design
